February 2009

Dear Friend of Neelam:

The Fire of Truth Satsanga (FOTS) would like to take this opportunity to wish you a joyous new year!

We expect this year will be filled with great personal changes for our beloved teacher Neelam as she gradually regains her health from several years of electromagnetic and chemical sensitivities. These last few years have required her to bring an unequivocal level of presence to her health, and will continue to do so in the coming months.

Dear Samaha,

This is the first time in two years that I find myself with a new level of energy and a renewed sense of aliveness and purpose in bringing my teaching contribution to the world.

My health crisis has been, and still is an amazing and deeply transformative process. It has allowed me to integrate more of my experience into a much broader sense of presence and, therefore to access the teaching in a new and different way.

This has been a deeply transformational process that has borne Neelam a greater level of understanding, and she is very motivated to share her new energy and insights with all of us through fresh and innovative programming, which we expect to begin in six months or a year from now.

Thus, FOTS has found itself on the eve of a new chapter in its precious history. A movement has arisen within the organization and the Sangha to do what has to be done to provide and empower Neelam with the structures and support she needs to fully return to her teaching. It's called the Benefactors' Circle.

Like you, we all love Neelam and deeply desire the return of her teaching into our lives. We all desire to have more contact and more access to Neelam in our homes. We have already begun to take some practical steps to support Neelam and our community through the FOTS website. In addition, the Benefactors' Circle will help her to use a telephone and computer again, and also allow her image to be filmed and her voice recorded.

As I am allowing myself the necessary time to complete my healing I am very much looking forward to sharing this new level of insight and transformative understanding.

At this moment we are happy to announce that there's already been a breakthrough with voice recording, and Neelam is now producing new material!

For the first time you will have access to this material as regularly updated multi-media content on her website - [www.neelam.org](http://www.neelam.org). With the addition of streaming video, downloadable booklets, photos and other written content, the site will become a place where you can easily find tools which support the **Practice of Presence**.

So the question is, will you join with us to make all of this happen?

Becoming a member of the Benefactors' Circle means that you are taking it upon yourself to help bring Neelam's teaching conveniently to you and others.

Membership entitles you to exclusive benefits including personal correspondence with Neelam, a monthly recording (just for members) sent to your email address; and, eventually special Satsanga teleconferences.

You can have complimentary access to retreats, intensives or an in-person one-on-one retreat with Neelam, free signed photographs, a complimentary CD and a newly published booklet. Also included will be free downloads of materials available from the website. It all depends on the level at which you would like to participate as a member of the Benefactors' Circle.

Right now we've set a modest goal of \$37,000 as our target. Included in this amount are funds to supplement Neelam's income through the winter and spring. We also need to invest in parabolic microphone technology, which will allow Neelam to be filmed from far enough away that she won't be affected by electromagnetic fields (EMF).

Funds are also needed to build a series of faraday cages to house electronic equipment, so Neelam is shielded from EMF while using it. As she has needed to live "off the grid," away from electromagnetic fields, we plan to invest in remote telephone equipment that can be adapted for Neelam to be able to be on the phone more often without having to leave home. Other costs include the website update, video capture and voice recognition software.

I am thrilled to know that very soon I will have many more ways to connect with you again through my teaching. I hope that you are generously able to support this exciting initiative.

To reiterate, Neelam strongly feels the tender and heartfelt desire to manifest a direct, clear and powerful connection with you!

But she needs your help and needs it now. Please consider how you can help make the connection real and palatable. We encourage you to contribute now! The money will be spent wisely, under the auspices of the board of directors of FOTS. And of course your contribution is **tax deductible**.

For your convenience, a donation card is enclosed.

With Warmest Regards,

*David, Lee, Mike, Nina, Phil & Rachel*

Action Group for Neelam's Benefactors' Circle

I have been truly amazed and humbled to witness the power of Presence throughout of my health crisis and in the process of recovery. I wish to empower you on your journey towards Freedom with this new level of experience and understanding

Love

Neelam

*Fire of Truth Satsanga - supporting the awakening of the individual consciousness into the Oneness of Being.*
