

# LIVING PRESENCE

November 2007 - April 2008

## General Program Description

*Living Presence* is an opportunity to work with Neelam on a new and more comprehensive level, directly and personally, for six months. It is the next step if you who have been on several retreats with Neelam, have had private sessions or more recently have been a part of one of the 6 week inquiry groups.

Teleconference is one of the newer ways Neelam is able to work more closely with you. We are pleased to announce that she will be facilitating all the teleconference sessions in this program. You will have a chance to stay connected to Neelam and her teaching throughout the program. Each month we will begin with a teleconference Satsang on a particular theme. Then Neelam will facilitate a teleconference "working session". Through her skillful and tender direction, you will be invited to dive into the teaching and to meet your conditioning as it is. You will also practice inquiry with a partner from the group so that your inquiry becomes easier and automatic. To strengthen commitment during this period, Neelam will work closely with us to develop a daily, personal practice.

There will also be two weekend gatherings with other group members in your region during the six months. Neelam will connect with us during these weekends again, through teleconference. We will gather for one group retreat with Neelam in January to allow everyone to come together for Satsang and to simply enjoy sangha. And of course there will also be opportunities to work with her privately as needed.
