Please write “Grand Junction 06/09” or “Boulder 07/09” in the comment box

Inquiry with Neelam is an invitation to explore places of not okayness, to explore our unconscious tendency to harden, brace against and move away from our experience in the moment, to explore how we create our way of life so we can avoid being present. Instead of seeking happiness and peace in some other places, some other states, we come together to spend time noticing it right where we are.

Everyone is welcome!
